Without **CLEARLINE**

With **CLEARLINE**

STOP BATTLING BARNACLES. WIN THE WAR WITH CLEARLINE®.

As barnacles invade raw water lines, they choke out the boat's air conditioning, refrigeration and other systems that depend on this water for cooling. Frequent descaling with harsh, acid-based cleaners is expensive and leads to time off the water. With ElectroSea's patented CLEARLINE System, the days of dealing with barnacles in your pipes are over and your sea strainer will stay cleaner longer.

U.S. Patent No. 11,027,991 and other U.S. and Foreign Patents Pending

CLEARLINE SYSTEM PRODUCT LINE

Model: CL-2000-X2.0

- 2" Pipe
- ≤ 75 GPM*
- Pump Control & Inhibit

Model: CL-1000-X1.5

- 1 1/2" to 1 1/4" Pipe
- ≤ 50 GPM
- Pump Control & Inhibit

Model: CL-990-X1.0

- 1 1/2" to 1 1/4" Pipe
- ≤ 50 GPM

Model: CL-430-N1.0

- 1.0" to 5/8" Pipe
- ≤ 26 GPM

Model: CL-410-N0.5

- 1/2" to 1/4" Pipe
- ≤ 7 GPM

* For flow rates >75 GPM, CLEARLINE Systems can be used in parallel.

NEVER DESCALE AGAIN.

Keeps air conditioning, refrigeration, chillers and raw water systems operating

Prevents blocked seawater lines and high-pressure fault alarms

Keeps sea strainers cleaner longer

Eliminates costly and hazardous acid cleaning and descaling

Electrochemically creates a natural disinfectant from seawater
